REPLY TO  
ATTN OF: 000

MEMORANDUM

SUBJECT: Boyd Coffee, P.A.

FROM: Tom Robertson *TER*  
Oregon Operations Office

TO: Deborah Flood  
Superfund Response and Investigations Sections

THRU: Alan Goodman *Alan Goodman*  
Chief, Hazardous Waste Section

Enclosed is the P.A., Regional Utilities Maintenance Form and the Potential Hazardous Waste Site Disposition Form for Boyd Coffee. This site was originally listed as part of the investigation for the East Multnomah County groundwater contamination problem.

Though the company does use solvents, the quantities used are in small enough quantities that they should not pose a risk to human health and the environment. My recommendation for the Boyd Coffee site is no further action under the Federal Superfund Program.
